SUBJECT INDEX

- 25-hydroxyvitamin D₃ concentration in sheep, Effect of parental vitamin D₃ on plasma 59
- 3-nitro-4-hydroxyphenylarsonic acid toxicosis in pigs, Experimental 47
- 5'-nucleotidase in the tissues of sheep and the effects of kidney and liver lesions on the activity of the enzyme in plasma and urine, Distribution of 103
- Abnormal angulation/torsion of the pelvic appendicular skeleton in broiler fowl: morphological and radiological findings 313
- Action of isometamidium chloride on the insect vector form of *Trypanosoma vivax* 289
- Adherence of *Moraxella bovis* to cell cultures of bovine origin 241
- African swine fever virus by *Ornithodoros savignyi*, Experimental transmission of 353
- African trypanosomiasis in four breeds of dairy goats, Comparison of the effects of 252
- Amoxycillin and clavulanic acid combination in the treatment of experimentally induced bacterial cystitis in cats 42
- Angulation/torsion of the pelvic appendicular skeleton in broiler fowl, Abnormal: morphological and radiological findings 313
- Anthelmintics, Metabolite concentrations in plasma following treatment of cattle with five 173
- Antibiotics administered parenterally to cattle, Plasma and tear concentrations of 170
- Antitheiler activity of BW720C (buparvaquone): a comparison with parvaquone 29
- Artificial insemination and embryo transfer, Embryonic mortality in heifers after: differences between virgin and repeat breeder heifers 271
- Attenuation of *Eimeria* species: further characterisation of two lines of *Eimeria mitis* 328
- Aujesky's disease, Intranasal vaccination of pigs against: comparison with inactivated vaccines in pigs with low maternal antibody titres 34
- Axis deer (*Axis axis*), Père David's deer (*Elaphurus davidianus*) and barasingha (*Cervus duvauceli*), Normal haematological values of 247
- Bacteroides nodosus* as detected in zymogram gels, Temporal relationships and characterisation of extracellular proteases from benign and virulent strains of 165
- Barasingha (*Cervus duvauceli*), axis deer (*Axis axis*) and Père David's deer (*Elaphurus davidianus*), Normal haematological values of 247
- Bladder neck position and vestibulovaginal stenosis in sphincter mechanism incompetence in the incontinent bitch, Importance of urethral length 364
- Blood eosinophilia in adult bantams naturally infected with *Trichostrongylus tenuis* 122
- Bone torsion in the pelvic appendicular skeletons of domestic fowl, Patterns of physiological 307
- Bovine post-parturient haemoglobinuria: effect of inorganic phosphate on red cell metabolism 333
- Bovine rhinotracheitis virus, infectious, Reaction of goats to infection with 84
- Brush border abnormalities, possible age-related: Wheat-sensitive enteropathy in Irish setter dogs 80
- Buparvaquone, Antitheiler activity of: a comparison with parvaquone 29
- BW720C (buparvaquone), Antitheiler activity of: a comparison with parvaquone 29
- Calcite urinary calculi in Chinese swamp buffalo, Ultrastructure and chemical composition of 373
- Calcium borogluconate infusion in sheep, Formation of calcium complex by borogluconate in vitro and 70
- Calcium complex by borogluconate in vitro and calcium borogluconate infusion in sheep, Formation of 70
- Capripoxvirus, Transmission of 196
- Characteristics of a feline mammary carcinoma cell line 157
- Chinese swamp buffalo, Ultrastructure and chemical composition of calcite urinary calculi in 373
- Clavulanate-potentiated amoxycillin in pigeons (*Columba livia*), Safety and efficacy of 87
- Clavulanic acid and Amoxycillin combination in the treatment of experimentally induced bacterial cystitis in cats 42
- Coccidia and weaning stress, Exacerbation of experimental parvoviral enteritis in calves by 16
- Colostrum from Scottish Blackface ewes with twin lambs, Effects of maternal nutrition on the availability of energy in the body reserves of fetuses at term and in 235
- Colostrum production in Scottish Blackface ewes with twin lambs, Effects of maternal nutrition on udder development during late pregnancy and on 230
- Comparison of the effects of African trypanosomiasis in

- four breeds of dairy goats 252
- Comparison of two techniques used for the recovery of nematode infective larvae from pasture 99
- Cross-agglutination absorption and restriction endonuclease analysis, Differentiation of reference strains of leptospires of the Pomona serogroup by 145
- Cross-agglutination absorption and restriction endonuclease analysis of leptospires of the Pomona serogroup isolated in the United Kingdom, Identification by 151
- Cystitis, bacterial, in cats, Amoxycillin and clavulanic acid combination in the treatment of experimentally induced 42
- Development, growth and eruption of permanent incisor teeth in Romney sheep 127
- Dictyocaulus viviparus* larvae in sporangia of the fungus *Pilobolus kleinii*, Viability and pattern of emergence of 124
- Dietary components in young farm animals, Hypersensitivity to: immunisation of calves for IgE antibody responses 62
- Dietary fat on some metabolic responses of cattle to fasting, Influence of 254
- Differentiation of reference strains of leptospires of the Pomona serogroup by cross-agglutination absorption and restriction endonuclease analysis 145
- Dihydrostreptomycin treatment of bovine carriers of *Leptospira interrogans* serovar *hardjo* 292
- Distribution of 5'-nucleotidase in the tissues of sheep and the effects of kidney and liver lesions on the activity of the enzyme in plasma and urine 103
- Ectopic pulmonary cartilage and bone in domestic fowl 188
- Effect of *Ostertagia ostertagi* on lamb performance and cross resistance to *O. circumcincta* 200
- Effect of parenteral vitamin D₃ on plasma 25-hydroxy-vitamin D₃ concentration in sheep 59
- Effect of PGF₂ α administration on the release of endogenous PGF₂ α and oxytocin in indomethacin-treated goats 66
- Effects of acute hypoxia on heat production in newborn lambs 212
- Effects of kidney and liver lesions on the activity of the enzyme in plasma and urine, Distribution of 5'-nucleotidase in the tissues of sheep and 103
- Effects of maternal nutrition on the availability of energy in the body reserves of fetuses at term and in colostrum from Scottish Blackface ewes with twin lambs 235
- Effects of maternal nutrition on udder development during late pregnancy and on colostrum production in Scottish Blackface ewes with twin lambs 230
- Effects of tick infestation on Boran (*Bos indicus*) cattle immunised against theileriosis in an endemic area of Kenya 279
- Effects of verapamil on the smooth muscle of the horse urinary tract 320
- Eimeria acervulina* infection in chickens, Does *Plasmodium gallinaceum* induce relapse of? 261
- Eimeria* species, Attenuation of: further characterisation of two lines of *Eimeria mitis* 328
- Electrical stimulation triggers porcine malignant hyperthermia 257
- Electron microscopy of the juxtaglomerular apparatus in young fowl fed a salt deficient diet 340
- Elevated bile acids in the plasma of laying hens fed rapeseed meal 378
- Embryo transfer, Embryonic mortality in heifers after artificial insemination and: differences between virgin and repeat breeder heifers 271
- Embryonic mortality in heifers after artificial insemination and embryo transfer: differences between virgin and repeat breeder heifers 271
- Energy in the body reserves of fetuses at term and in colostrum from Scottish Blackface ewes with twin lambs, Effects of maternal nutrition on the availability of 235
- Eperythrozoon ovis*, Humoral immune response of sheep to infection with 275
- Escherichia coli* enterotoxigenic for calves, lambs and piglets, Evaluation of a monoclonal antibody to the K99 fimbrial adhesion produced by 75
- Evaluation of a monoclonal antibody to the K99 fimbrial adhesin produced by *Escherichia coli* enterotoxigenic for calves, lambs and piglets 75
- Exacerbation of experimental parvoviral enteritis in calves by coccidia and weaning stress 16
- Excretion of *Leptospira interrogans* serovar *hardjo* following calving or abortion 292
- Experimental 3-nitro-4-hydroxyphenylarsonic acid toxicosis in pigs 47
- Experimental transmission of African swine fever virus by *Ornithodoros savignyi* 353
- Fasciola gigantica* infection in rats administered meta-cercarial antigens, Protection against 383
- Fasciola hepatica*, Immune responses in rats and cattle to primary infection with 357
- Fasting, Influence of dietary fat on some metabolic responses of cattle to 254
- Flunixin meglumine in the cow, Pharmacokinetics of 110
- Foot-and-mouth disease vaccines, Guinea pig protection test as indicator of potency of oil emulsion 207
- Formation of calcium complex by borogluconate in vitro and during calcium borogluconate infusion in sheep 70
- Gamma-glutamyl transpeptidase and its multiple forms in the tissues and sera of normal dogs 385
- Gastrointestinal flora in iron-deficient piglets 5
- Granulocytes in the ovary and ultimobronchial glands of the adult fowl, Heterophilic leucocytes are the predominant 119
- Guinea pig protection test as indicator of potency of oil emulsion foot-and-mouth disease vaccines 207
- Haemoglobinuria, Bovine post-parturient: effect of inorganic phosphate on red cell metabolism 333
- Haemophilus somnus*, Development of improved methods for the transport and isolation of 299
- Heterophilic leucocytes are the predominant granulocytes in the ovary and ultimobronchial glands of the adult fowl 119
- Humoral immune response of sheep to infection with *Eperythrozoon ovis* 275

- Hypersensitivity to dietary components in young farm animals: immunisation of calves for IgE antibody responses 62
- Hypogalactia in sows, Prostaglandin F₂ α and prolactin in experimental 222
- Hypoxia on heat production in newborn lambs, Effects of acute 212
- Identification by cross-agglutination absorption and restriction endonuclease analysis of leptospires of the Pomona serogroup isolated in the United Kingdom 151
- IgE antibody responses, immunisation of calves for: hypersensitivity to dietary components in young farm animals 62
- Ileal cannulation of adult cockerels, An improved method of 390
- Immune responses in rats and cattle to primary infections with *Fasciola hepatica* 357
- Immunisation of cattle with a recombinant togavirus-vaccinia virus strain 113
- Immunophysiological activity of supramammary lymph nodes of the ewe during the very early phase of staphylococcal mastitis 52
- Importance of urethral length, bladder neck position and vestibulovaginal stenosis in sphincter mechanism incompetence in the incontinent bitch 364
- In vitro culture of parasitic stages and their use for the evaluation of anthelmintics: *Trichostrongylus colubriformis* 90
- In vitro mechanical properties of equine tendons in relation to cross-sectional area and collagen content 263
- In vivo bone strain in the equine tibia before and after transection of the peroneus tertius muscle 139
- Indomethacin-treated goats, Effect of PGF₂ α administration on the release of endogenous PGF₂ α and oxytocin in 66
- Influence of dietary fat on some metabolic responses of cattle to fasting 254
- Intestinal uptake of intact material lymphocytes by neonatal rats and lambs 10
- Intrahepatic distribution of portal blood, Effect of development of the ovine forestomachs on portal vessels and on 216
- Intranasal vaccination of pigs against Aujeszky's disease: comparison with inactivated vaccines in pigs with low maternal antibody titres 34
- Irish setter dogs, Wheat-sensitive enteropathy in: possible age-related brush border abnormalities 80
- Iron-deficient piglets, Gastrointestinal flora in 5
- Isoenzyme analysis of stocks of trypanosomes isolated from cattle in Indonesia 388
- Isometamidium chloride on the insect vector form of *Trypanosoma vivax*, Action of 289
- Juxtaglomerular apparatus in young fowl fed a salt deficient diet, Electron microscopy of 340
- K99 fimbrial adhesin produced by *Escherichia coli* enterotoxigenic for calves, lambs and piglets, Evaluation of a monoclonal antibody to 75
- Ketotic dairy cows, Propionate loading test for liver function in spontaneously 24
- Leptospira interrogans* serovar *hardjo*, Dihydrostreptomycin treatment of bovine carriers of 292
- Leptospira interrogans* serovar *hardjo* following calving or abortion, Excretion of 292
- Leptospires of the Pomona serogroup by cross-agglutination absorption and restriction endonuclease analysis, Differentiation of reference strains of 145
- Leptospires of the Pomona serogroup isolated in the United Kingdom, Identification by cross-agglutination absorption and restriction endonuclease analysis of 151
- Liver function in spontaneously ketotic dairy cows, Propionate loading test for 24
- Loss of biological and immunological activity of oxytocin from goat plasma on storage 259
- Lymphocytes, intact material, Intestinal uptake of neonatal rats and lambs 10
- Malignant hyperthermia, Electrical stimulation triggers porcine 257
- Mammary carcinoma cell line, Characteristics of a feline 157
- Metabolite concentrations in plasma following treatment of cattle with five anthelmintics 173
- Metacercarial antigens, Protections against *Fasciola gigantica* infection in rats administered 383
- Moraxella bovis* to cell cultures of bovine origin, Adherence of 241
- Nematode infective larvae, Comparison of two techniques used for the recovery of, from pasture 99
- Normal haematological values of axis deer (*Axis axis*), Père David's deer (*Elaphurus davidianus*) and barasingha (*Cervus duvauceli*) 247
- Ornithodoros savignyi*, Experimental transmission of African swine fever virus by 353
- Ostertagia circumcincta*, Effect of *Ostertagia ostertagi* on lamb performance and cross resistance to 200
- Ostertagia ostertagi* on lamb performance and cross resistance to *O. circumcincta*, Effect of 200
- Ovine forestomachs, Effect of development of, on the anatomy of portal vessels and on the intrahepatic distribution of portal blood 216
- Oxytocin from goat plasma on storage, Loss of biological and immunological activity of 259
- Oxytocin in indomethacin-treated goats, Effect of PGF₂ α administration on the release of endogenous PGF₂ α and 66
- Parvaquone, Antithelminthic activity of BW720C (buparvaquone): a comparison with 29
- Parvaquone, Treatment of *Theileria annulata* infection in calves with 1
- Parvoviral enteritis in calves by coccidia and weaning stress, Exacerbation of experimental 16
- Patterns of physiological bone torsion in the pelvic appendicular skeletons of domestic fowl 307
- Pelvic appendicular skeleton in broiler fowl, Abnormal angulation/torsion of: morphological and radiological findings 313
- Pelvic appendicular skeletons of domestic fowl, Patterns of physiological bone torsion in the 307

- Père David's deer (*Elaphurus davidianus*), axis deer (*Axis axis*) and barasingha (*Cervus duvauceli*), Normal haematological values of 247
- Peroneus tertius muscle, In vivo bone strain in the equine tibia before and after transection of the 139
- PGF_{2α} administration on the release of endogenous PGF_{2α} and oxytocin in indomethacin-treated goats, Effect of 66
- Pharmacokinetics of flunixin meglumine in the cow 110
- Pigeons (*Columba livia*), Safety and efficacy of clavulanate-potentiated amoxycillin in 87
- Pilobolus kleinii*, Viability and pattern of emergence of *Dictyocaulus viviparus* larvae in sporangia of the fungus 124
- Plasma and tear concentrations of antibiotics administered parenterally to cattle 179
- Plasmodium gallinaceum*: Does it induce relapse of *Eimeria acervulina* infection in chickens? 261
- Pneumonia in Friesian calves, Respiratory syncytial virus: physiological findings 320
- Pomona serogroup by cross-agglutination absorption and restriction endonuclease analysis, Differentiation of reference strains of leptospires of 145
- Pomona serogroup isolated in the United Kingdom, Identification by cross-agglutination absorption and restriction endonuclease analysis of leptospires of 151
- Portal vessels and on the intrahepatic distribution of portal blood, Effect of development of the ovine forestomachs 216
- Prolactin in experimental hypogalactia in sows, prostaglandin F_{2α} and 222
- Propionate loading test for liver function in spontaneously ketotic dairy cows 24
- Prostaglandin F_{2α} and prolactin in experimental hypogalactia in sows 222
- Protections against *Fasciola gigantica* infection in rats administered metacercarial antigens 383
- Rapeseed meal, Elevated bile acids in the plasma of laying hens fed 378
- Reaction of goats to infection with infectious bovine rhinotracheitis virus 84
- Recombinant togavirus-vaccinia virus strain, Immunisation of cattle with 113
- Renal lesions and tissue concentrations of zinc, copper, iron and manganese in experimentally intoxicated sheep 249
- Reovirus-induced tenosynovitis: persistence of homologous challenge virus in broiler chicks after vaccination of parents 39
- Respiratory syncytial virus pneumonia in Friesian calves: physiological findings 320
- Restriction endonuclease analysis, Differentiation of reference strains of leptospires of the Pomona serogroup by cross-agglutination absorption and 145
- Restriction endonuclease analysis of leptospires of the Pomona serogroup isolated in the United Kingdom, Identification by cross-agglutination absorption and 151
- Rhinotracheitis virus, bovine, infectious, Reaction of goats to infection with 84
- Safety and efficacy of clavulanate-potentiated amoxycillin in pigeons (*Columba livia*) 87
- Salt deficient diet, Electron microscopy of the juxtaglomerular apparatus in young fowl fed a 340
- Sphincter mechanism incompetence in the incontinent bitch, Importance of urethral length, bladder neck position and vestibulovaginal stenosis in 364
- Spirochaetes in the equine caecum 95
- Staphylococcal mastitis, Immunophysiological activity of suprammary lymph nodes of the ewe during the very early phase of 52
- Suprammary lymph nodes of the ewe during the very early phase of staphylococcal mastitis, Immunophysiological activity of 52
- Teeth, permanent incisor, in Romney sheep, Development, growth and eruption of 127
- Temporal relationships and characterisation of extracellular proteases from benign and virulent strains of *Bacteroides nodosus* as detected in zymogram gels 165
- Tendons in relation to cross-sectional area and collagen content, In vitro mechanical properties of equine 263
- Tenosynovitis, Reovirus-induced: persistence of homologous challenge virus in broiler chicks after vaccination of parents 39
- Theileria annulata* infection in calves with parvaquone, Treatment of 1
- Theileriosis in an endemic area of Kenya, Effects of tick infestation on Boran (*Bos indicus*) cattle immunised against 279
- Tick infestation on Boran (*Bos indicus*) cattle immunised against theileriosis in an endemic area of Kenya, Effects of 279
- Togavirus-vaccinia virus strain, Immunisation of cattle with a recombinant 113
- Transmission of capripoxvirus 196
- Treatment of *Theileria annulata* infection in calves with parvaquone 1
- Trichostrongyle larval populations on herbage from grazed and ungrazed cattle pastures in south west Scotland 116
- Trichostrongylus colubriformis*: in vitro culture of parasitic stages and their use for the evaluation of anthelmintics 90
- Trichostrongylus tenuis*, Blood eosinophilia in adult bantams naturally infected with 122
- Trypanosoma vivax*, Action of isometamidium chloride on the insect vector form of 289
- Trypanosomes isolated from cattle in Indonesia, Isoenzyme analysis of stocks of 388
- Udder development during late pregnancy and on colostrum production in Scottish Blackface ewes with twin lambs, Effects of maternal nutrition on 230
- Ultrastructure and chemical composition of calcite urinary calculi in Chinese swamp buffalo 373
- Urethral length, bladder neck position and vestibulovaginal stenosis in sphincter mechanism incompetence in the incontinent bitch, Importance of 364
- Urinary tract, Effects of verapamil on the smooth muscle of the horse 320

- Verapamil on the smooth muscle of the horse urinary tract, Effects of 320
- Vestibulovaginal stenosis in sphincter mechanism incompetence in the incontinent bitch, Importance of urethral length, bladder neck position and 364
- Viability and pattern of emergence of *Dictyocaulus viviparus* larvae in sporangia of the fungus *Pilobolus kleinii* 124
- Vitamin D₃ on plasma 25-hydroxyvitamin D₃ concentration in sheep, Effect of parenteral 59
- Weaning stress, Exacerbation of experimental parvoviral enteritis in calves by coccidia and 16
- Wheat-sensitive enteropathy in Irish setter dogs: possible age-related brush border abnormalities 80
- Zinc, copper, iron and manganese in experimentally intoxicated sheep, Renal lesions and tissue concentrations of 249
- Zymogram gels, Temporal relationships and characterisation of extracellular proteases from benign and virulent strains of *Bacteroides nodosus* as described in 165
